**Event brief (500 words with photo):**

Institution Innovation Council Organized a Live Webinar entitled “Higher Studies and Job Opportunities in Abroad for Engineers”. The session was taken forward through online on 28<sup>th</sup> October 2020. Mr.K.Narasimhan, The Hope (Overseas Educational Consultant), Coimbatore was the Resource Person for the Session. He interacted and shared his knowledge on lot of career opportunity available after engineering among the participants.

Participants are taught with,

**Session : (28.10.2020)**

**Resourced by: Mr.K.Narasimhan**

- All you need is to grab some knowledge regarding these jobs and spend some time in learning the skill required in these jobs.
- Having clear about what you want to do in your life can help you in landing successful career.
- It is better to get job in a company through campus placements as it is difficult to get job after you are out of the college.
- To do M.S. you must clear TOEFL/IELTS (English proficiency tests) and GRE to get scholarships.
- Now a day most of the foreign universities are offering post graduate courses at affordable costs and also many banks provide loans for higher studies.
- Fortunately, some graduate programs offer students the option to study internationally

during their studies.

- Always stay connected with your seniors and friends because they can provide you a breakthrough to pursue your dream job.

<b>Outcomes</b>	Participants understand lot of career opportunity available after engineering. All you need is to harness your talent and find a suitable job.
<b>Feedback</b>	Participants satisfied with the contents and delivery.
<b>Suggestions / Future actions</b>	-NIL-
