Awareness Seminar on IPR and Design Patents

Report

Date : 7.3.2019

An Awareness seminar on IPR and design patents was given by Prof P.Gowtham, ECE department to the III year ECE students on 7.3.2019. He explained about the role of intellectual property in students research and how entrepreneurial skills could be developed with it. He explained about a design patent and how essential designs could be patented. Many examples were showcased in the seminar and students were given a task to identify problems and provide solution to the problems. The students found the seminar to be useful and asked many doubts regarding patents.
