## IPR CELL

### Seminar on Research Aspects and Paper Publication

Date : 12.2.2019

#### Report

The IPR cell has arranged an seminar on Research Aspects an Paper Publication to the ME students and the faculty members of JIT. Prof Matheswaran of Mechanical department delivered the seminar on 12.2.2019. He explained about the concept of research and how to identify the research area. He explained about literature review, problem formulation and identifying solution to the problem. He then addressed how the research work could be converted to a good journal paper. He also gave an insight about plagiarism checking, the journal impact factor, citation index, h-index of a journal paper. He sighted his publications during his presentation. The faculty found the information to be helpful for publications.
